

LIBRARY SOFTWARE

The Library is fully automated with KOHA, an open source integrated library management system to meet all its housekeeping operations.

KOHA is a free open source licensed software designed to meet all types of library housekeeping operations. ADMC College Library has KOHA Software installed on 2018. Circulation of Books, OPAC Access, Electronic Gate Entry, Back up Modules are available in KOHA.

KOHA – SOFTWARE

E- GATE ENTRY

OPAC (Online Public Access Catalogue):

Library Users can access all the library holdings availability. OPAC (Online Public Access Catalogue) helps the user to view the information regarding the book or journal or any other and also provides details of the status of the resources, whether it is available in the library or in circulation.

OPAC Link : <http://192.168.0.105:8080>
