SAMPLE E-CONTENT VIDEOS

YouTube video player showing a slide titled "BALANCE OF PAYMENT". The slide lists the presenter as Mrs. S. RAJESWARI, Associate Professor of Economics at ADM College for Women, Nagapattinam. The video title is "BALANCE OF PAYMENT - ECONOMICS".

YouTube video player showing a slide with the following content:

DEFINITION

- Balance of trade of a country is the relation over a period between the value of exports and value of imports

Features

- The elements of balance of trade are exports and imports
- Balance of trade shows the total value of goods exported and total value of goods imported by a country
- Considers only the value of visible goods exported and visible goods imported

The video title is "BALANCE OF PAYMENT - ECONOMICS".

YouTube video player showing a slide with the presenter's name "Dr. V. VIJI" and her title "ASSOCIATE PROFESSOR PG and RESEARCH DEPARTMENT OF ECONOMICS A.D.M. COLLEGE (W) NAGAPATTINAM". The video title is "Barter System".

YouTube video player showing a slide titled "Barter System" with the following text:

produces or goods exchanged for consumption. All man cannot produce all things they required. Individuals produce one or two products. But he need to live many more things like food things, cloths, vessel, fuels etc. Now a days we are going to market and purchase all the things in the market with the help of money. In the earlier stage trading was done by means exchange of commodities. This is called barter system.

The video title is "Barter System".

YouTube video player showing a slide titled "ECONOMICS OF DEVELOPMENT" with the presenter's name "P. Kavitha" and her title "Assistant professor of economics A.D.M. College for Women Nagapattinam". The video title is "ECONOMICS OF DEVELOPMENT".

YouTube video player showing a slide titled "Measurement of economic development: 1. GNP:". The slide contains the following text:

"Real national income" refers to the country's output of final goods and services in real terms rather than in "current prices". A short period rise in national income which occurs during upswing of the business cycles does not constitute economic development. This measure fails to take into account the growth of population. Distribution of income in the economy

The video title is "ECONOMICS OF DEVELOPMENT".

HUMAN RESOURCE MANAGEMENT

BY
DR. N. SAMPATHLAKSHMI
HOD & ASSOCIATE PROFESSOR OF COMMERCE
A.D.M. COLLEGE FOR WOMEN, (AUTONOMOUS)
NAGAPATTINAM

Human Resource Management - Commerce
ADM College for Women (Autono...

The National Institute of Personnel Management (NIPM) of India has defined human resources as that part of management which is concerned with people at work and with their relationship within an enterprise. Its aim is to bring together and develop into an effective organization of the men and women who make up enterprise and having regard for the well being of the individuals and of working groups, to enable them to make their best contribution to its success.

According to Inancevich and Glueck "Human resource management is concerned with the most effective use of people to achieve organizational and individual goals".

CORPORATE ACCOUNTING

Dr. V. RENUGA
ASSOCIATE PROFESSOR OF COMMERCE

CORPORATE ACCOUNTING - UNIT I - ISSUE AND REDEMPTION OF PREFERENCE SHARES AND DEBENTURES - COMMERCE
ADM College for Women (Autono...

Non-cumulative preference shares

These types of shares do not accumulate dividends in the form of arrears. In the case of non-cumulative preference shares, the dividend payout takes place from the profits made by the company in the current year. If there is a year in which the company doesn't make any profit, then the shareholders are not paid any dividends for that year and they cannot claim for dividends in any future profit year.

Measure Theory And Integration
ADM College for Women (Autono...

S.1 Signed Measures and the Hahn Decomposition:

Signed Measure:
A set function γ defined on a measurable space $[[X, S]]$ is said to be a signed measure if the values of γ are extended real numbers and

- (i) γ takes atmost one of the values $-\infty, +\infty$.
- (ii) $\gamma(\emptyset) = 0$.
- (iii) $\gamma(\cup_{i=1}^{\infty} E_i) = \sum_{i=1}^{\infty} \gamma(E_i)$ if $E_i \cap E_j = \emptyset$ for $i \neq j$.

Where if the L.H.S is infinite, the series on the R.H.S has to be convergent to $-\infty$ or $+\infty$.

Example: 1
Show that if $\phi(E) = \int_E f d\mu$ where $f f d\mu$ is defined, then ϕ is a signed measure.

Solution:

- (i) Let us take either $\int f^+ d\mu < \infty$ or $\int f^- d\mu < \infty$.
 $\Rightarrow \gamma$ takes atmost one of the values $-\infty, +\infty$.
- (ii) $\gamma(\emptyset) = 0$ is trivial.
- (iii) Let $\{E_i\}$ be a sequence of disjoint sets of S and S .

Let us take,

0:05 / 20:03 $\phi(E) = \int_E f d\mu$ $\phi^+(E)$

NORMAL SUBGROUPS AND QUOTIENT GROUPS - MATHEMATICS
ADM College for ...

NORMAL SUBGROUPS

Definition: A subgroup H of a group G is said to be a **normal subgroup** if $aH = Ha$ for all $a \in G$.

Examples

1. For any group $G, \{e\}$ and G are normal subgroups.
- $ae = ea, ea = a^{-1}e^{-1} \Rightarrow ae = ea$, for all $a \in G, \Rightarrow \{e\}$ is normal.
2. In S_3 , the subgroup $H = \{e, p_1, p_2\}$ is normal subgroup.
- $S_3 = \{e, p_1, p_2, \dots, p_5\} a \in H = Ha, \dots$
3. In S_3 , the subgroup $H = \{e, p_1\}$ is not normal subgroup.

Organometallic Compounds

III-B.Sc., Chemistry
Inorganic Chemistry

Mrs. S. Malathy,
Head & Associate Professor of Chemistry

0:05 / 30:41

Multicentre bonded organometallic compounds:

The compounds in which a loosely bonded electron deficient species exist with the coordination of metal like Li, Be, Al... etc

Examples: MgLi or $(\text{CH}_3)_4\text{Li}_4$, Al_2Me_6 , $[\text{Be}(\text{CH}_3)_3]$

Classification of ligands based on hapticity:

Organic ligands are classified according to "number of carbon atoms within a bonding distance of metal atom or the number of carbon atoms in which an organic ligand is attached to central metal atom" is known as "hapticity" of the ligand.

IR SPECTROSCOPY - PHYSICAL METHODS IN CHEMISTRY - CHEMISTRY

ADM College for Women (Autono...

adm college nagapattinam Chemistry

Introduction of IR Spectroscopy

- Infrared spectroscopy is an important analytical technique for determining the structure of both inorganic and organic compounds. It is also vibrational spectroscopy.
- IR radiation lies in the wavelength range of 0.7 - 400 μm .
- IR Spectroscopy is based upon selective absorption of IR radiations by the molecule which induces vibration of the molecules of the compound.
- IR instruments are two types namely, Dispersive Instrument and Fourier transform IR Instrument.
- The radiation sources used are incandescent lamp, Nernst glower etc., and the detectors used are thermal and photon detectors.

Emily Dickinson - Because I Could Not Stop For Death

Emily Dickinson was born on 10th December 1830 at Amherst, a small town in America.

Emily Dickinson is considered one of the leading 19th century American poets.

Her poems were based on her observations.

Her poems are noted for mysteries and grandeurs.

Emily's favourite subjects were love, life, nature, death, immortality, time and soul.

Author Introduction

•Thakazhi Sivasankara Pillai was born on April 17, 1912 in Thakazhy, a small village in Kuttanad in present-day Alappuzha district of Kerala to PoypallikalathilAnkara Kurup, who was the brother of Guru Kunchu Kurup, a doyen of Kathakali and Aripurathuveetil Parvathy Amma. After early tutoring by his father and Chakkampurathu Kittu Asan, a local teacher, Pillai had his primary education at a local school in Thakazhi and passed 7th standard examination from the English School in Ambalappuzha. Subsequently, he did his high school education, first at a high school inVaikom and later at a school in Karuvatta, where he had the opportunity to study underKainikkara Kumara Pillai, who was the headmaster of the school during that period.
