Barter System

produces or goods exchanged for consumption.
All man cannot produce all things they required.
Individuals produce one or two products .
But he need to live many more things like food things , cloths , vessel , fuels etc.
Now a days we are going to market and purchase all the things in the market with the help of money.
In the earlier stage trading was done by means exchange of commodities.
This is called barter system.

Measurement of economic development: 1. GNP:

"Real national income" refers to the country's output of final goods and services in real terms rather than in "current prices".
A short period rise in national income occurs during upswing of the business cycles does not constitute economic development.
This measure fails to take into account the growth of population.

The National Institute of Personnel Management (NIPM) of India has defined human resources as that part of management which is concerned with people at work and with their relationship within an enterprise. Its aim is to bring together and develop into an effective organization of the men and women who make up enterprise and having regard for the well being of the individuals and of working groups, to enable them to make their best contribution to its success.

According to In Vancevich and Glueck "Human resource management is concerned with the most effective use of people to achieve organizational and individual goals".

Non-cumulative preference shares

These types of shares do not accumulate dividends in the form of arrears. In the case of non-cumulative preference shares, the dividend payout takes place from the profits made by the company in the current year. If there is a year in which the company doesn't make any profit, then the shareholders are not paid any dividends for that year and they cannot claim for dividends in any future profit year.

Multicentre bonded organometallic compounds:

The compounds in which a loosely bonded electron deficient species exist with the coordination of metal like Li, Be, Al... etc

Examples: MeLi or $(\text{CH}_3)_4\text{Li}$, Al_2Me_6 , $[\text{Be}(\text{CH}_3)_3]$

Classification of ligands based on hapticity:

Organic ligands are classified according to "number of carbon atoms within a bonding distance of metal atom or the number of carbon atoms in which an organic ligand is attached to central metal atom" is known as "hapticity" of the ligand.

Introduction of IR Spectroscopy

- Infrared spectroscopy is an important analytical technique for determining the structure of both inorganic and organic compounds. It is also vibrational spectroscopy.
- IR radiation lies in the wavelength range of 0.7 - 400 μm .
- IR Spectroscopy is based upon selective absorption of IR radiations by the molecule which induces vibration of the molecules of the compound.
- IR instruments are two types namely, Dispersive Instrument and Fourier transform IR Instrument.
- The radiation sources used are incandescent lamp, Nernst glower etc., and the detectors used are thermal and photon detectors.

OBJECTIVES

Dried Fish Drying is a method of food preservation it works by removing water from the food, which inhibits the growth of microorganisms and hinders quality decay.

Using sun and wind to prevent spoilage has been practiced since ancient times, and was the earliest form of fish curing.

A central concern of fish processing is to prevent fish from deteriorating, and this remains an underlying concern during other processing operations. Fish processing can be subdivided into fish handling, which is the preliminary processing of raw fish, and the manufacture of fish products.

Author Introduction

- Thakazhi Sivasankara Pillai was born on April 17, 1912 in Thakazhy, a small village in Kuttanad in present-day Alappuzha district of Kerala to Poypallikalathil Anka Kurup, who was the brother of Guru Kunchu Kurup, a doyen of Kathakali and Aripurathuveetil Parvathy Amma. After early tutoring by his father and Chakkampurathu Kittu Asan, a local teacher, Pillai had his primary education at a local school in Thakazhi and passed 7th standard examination from the English School in Ambalappuzha. Subsequently, he did his high school education, first at a high school in Vaikom and later at a school in Karuvatta, where he had the opportunity to study under Kainikkara Kumara Pillai, who was the headmaster of the school during that period.
