## Introduction

---

Proper measures have been taken to update the curriculum which meets the current trends and needs. The COE office is responsible to conduct and evaluate the performance of the students. The annual exam schedule that includes all the activities related with examinations is prepared. It follows the timeliness as per schedule and execute the work in team with utmost precision and fairness without allowing malpractice of any type. The evaluation is done in two phases, namely, Continuous Internal Assessment (CIA) and Semester Examination (SE). The CIA marks are entered through the student portal and transferred to the exam software. The semester examinations are conducted twice a year in November and April in a well planned manner. Central Valuation is followed for correcting the answer scripts. As soon as the papers are corrected, the examiners can straight away give the marks for entering into the software. The results are verified by a team of staff members and published in the award committee meeting. Transparency is available after publishing the results. Supplementary examinations are conducted for students those who are failed in one subject after completing all the six semesters. The provisional format is sent to the University for getting the provisional as well as the degree certificates.

## Autonomous Rank List

The Candidates Named below have secured the ranks mentioned against their names in the UNDERGRADUATE Programmes.

The Total Marks were taken into account for finding the ranks of the students. In the case of candidates who reappeared in any subject, only the First Examination marks have been taken into account. Also, marks secured by the students in their regular Examinations were only considered for arriving at the total marks and ranking the candidates.
