

## Research Culture At ADMC

Research has been a part of the academic culture in ADMC campus. There are Seven PG and Research departments having vibrant research aptitude and encouraged and motivate staff and students to undertake outcome based research, as a part of their regular academic and research development programme. The research activities include project works in MA/M.Sc/M.Com and research at M.Phil and Ph.D level. Departments involve themselves to undertake students project every year. Periodical guest lecturers with renowned scholars, researchers and young scientists animate the academic ambience and give impetus to the young minds. Researchers in various faculty have ties with various International and National libraries and other centers of active research.

## Research Advisory Committee
